CLARIFICATION ANNOUNCEMENT

2010 FINANCIAL RESULTS PRESENTATION

Reference is made to the announcement of Minmetals Resources Limited (the "Company") dated 28 March 2011 in relation to the 2010 Financial Results Presentation.

The board of directors of the Company noted the following typographical errors on page 10 of the 2010 Financial Results Presentation:

1. Changes in working capital and other
The amounts in 2010 and 2009 should be US\$29.0 million and US\$(78.6 million) instead of US\$55.9 million and US\$(134.0 million) respectively;
2. Free cash flow
The amounts in 2010 and 2009 should be US\$469.4 million and US\$101.0 million instead of US\$496.3 million and US\$45.6 million respectively; and
3. Operating and investing cash flows⁽¹⁾
The amounts in 2010 and 2009 should be US\$365.0 million and US\$143.2 million instead of US\$391.9 million and US\$87.8 million respectively.
Remarks: (1) Adjusted to include interest paid and exclude cash flows related to acquisitions and short term deposits

A revised 2010 Financial Results Presentation is attached in this announcement.

By order of the Board
Minmetals Resources Limited
Andrew Gordon Michelmore
CEO and Executive Director

Hong Kong, 29 March 2011

As at the date of this announcement, the board of directors of the Company comprises eleven directors, of which four are executive directors, namely Mr. Hao Chuanfu (Vice Chairman), Mr. Andrew Gordon Michelmore, Mr. David Mark Lamont and Mr. Li Liangang; four are non-executive directors, namely Mr. Li Fuli (Chairman), Mr. Jiao Jian, Mr. Xu Jiqing and Mr. Wang Lixin; and three are independent non-executive directors, namely Mr. Ting Leung Huel, Stephen, Mr. Loong Ping Kwan and Dr. Peter William Cassidy.

The new MMR...

Re-positioning MMR post acquisition of MMG assets on 31 December 2010

- 1 An international diversified upstream base metals company**
- 2 Strong financial and operational performance**
- 3 Commitment to growth: organic, exploration and discovery, M & A**
- 4 Experienced board and management team**
- 5 China Minmetals commits to be a supportive majority shareholder**
- 6 Divestment of non-core trading and downstream assets**

Our strategic and financial re-positioning

Strategic divestment

- Focused on upstream base metals projects
- Intended divestment of non-core downstream assets during 2011
- Fair market value proceeds will add to balance sheet strength

Organic growth

- Resource replenishment and extension
- Attractive project pipeline
- Capital committed to upstream growth

M & A

- Targeted value-focused acquisition
- Clear capital investment criteria
- Size meaningful to MMR

Capital re-structuring

- Optimising MMR's capital structure
- Balance sheet flexibility to support growth initiatives
- Continued China Minmetals support as majority shareholder
- Full conversion of PSCS if Specific Mandate is exercised

02

**OPERATIONAL PERFORMANCE
AND GUIDANCE**

Operational highlights

Safety

- TRIFR down from 6.3 to 4.7
- LTIFR down from 1.0 to 0.3

Production / operations

- Production levels within or ahead of guidance
- Completion of significant capex
 - Sepon nameplate capacity expansion to 80ktpa, Golden Grove TSF3, Rosebery ventilation shaft

Exploration

- Upgraded resources and reserves statement
 - Annual production more than replenished by reserves increases
 - Positive impact on mine life
 - Possible extension at Century from mining lower grade material
- Active and substantial investment in exploration
 - Positive results from US\$50.9 million investment in exploration in 2010
 - Izok Lake and High Lake continue to look prospective
 - Other exploration projects in Indonesia, Canada, Australia

Development

- Dugald River project moving forward
 - Public consultation on Environmental Impact Statement completed
 - Project commitment expected 3Q 2011; indicated start of production early-2014

Significant upgrade of ore reserves and mineral resources

Ore reserves – June 2010

Ore Reserves	Contained Metal				
	Zinc (Mt)	Copper (Mt)	Lead (Mt)	Silver (Moz)	Gold (Moz)
Sepon	-	0.8	-	0.7	0.2
Century	3.1	-	0.3	17.6	-
Golden Grove	0.2	0.1	0.0	4.8	0.1
Rosebery	0.7	0.0	0.2	26.1	0.3
Total Reserves	4.0	1.0	0.6	49.2	0.6

Figures may not total due to rounding according to JORC guideline

Mineral resources – June 2010

Mineral Resources	Contained Metal					
	Zinc (Mt)	Copper (Mt)	Lead (Mt)	Silver (Moz)	Gold (Moz)	Nickel (Mt)
Sepon	-	1.6	-	14.4	3.1	-
Century	4.4	-	0.7	45.0	-	-
Dugald River	6.6	0.1	1.0	61.9	0.0	-
Golden Grove	1.3	0.8	0.1	45.0	0.9	-
Rosebery	2.0	0.1	0.7	78.1	1.1	-
Avebury	-	-	-	-	-	0.2
High Lake	0.6	0.4	0.1	38.7	0.5	-
Izok Lake	1.9	0.4	0.2	33.5	-	-
Total Resources	16.8	3.3	2.7	316.6	5.7	0.2

Figures may not total due to rounding according to JORC guideline

Change in ore reserves (contained metal) vs. June 2009

Change in mineral resources (contained metal) vs. June 2009

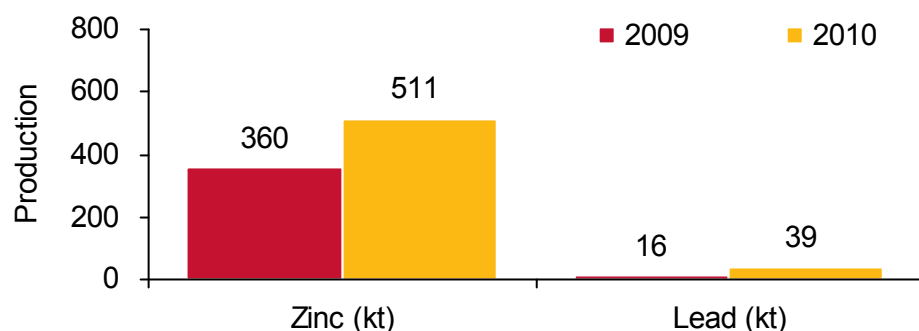

Note: Data from MMG Mineral Resources and Ore Reserves Statement (in accordance to the JORC Code) as at 30 June 2010 as announced by MMR on 16 February 2011. Resources are inclusive of reserves

Strong 2010 production performance from all assets

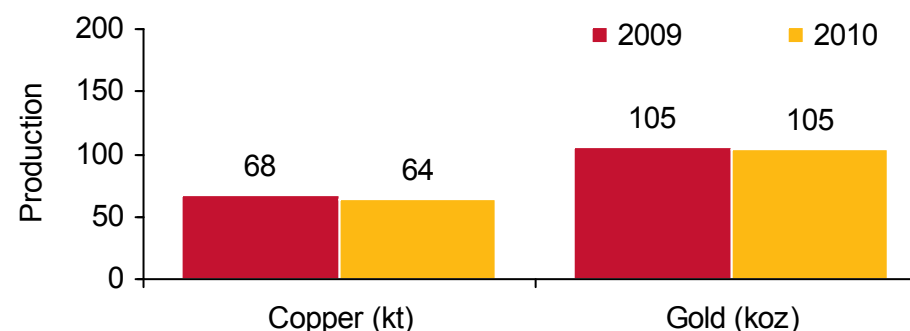

Century (Queensland, Australia)

- One of the world's largest zinc mines, Australia's largest open pit zinc mine, >500ktpa zinc operation

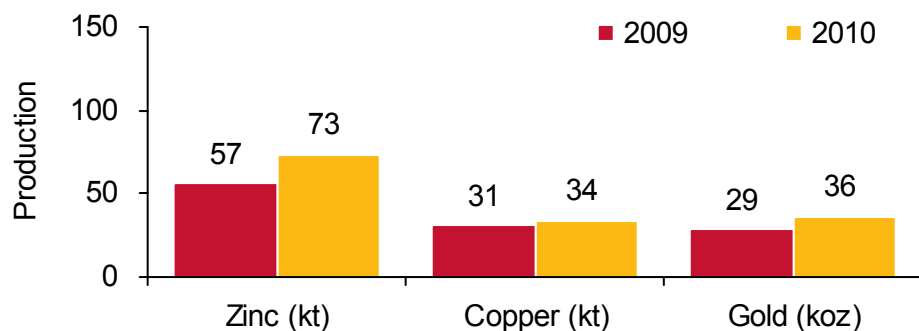

Sepon (Laos)

- Copper cathode and gold dore

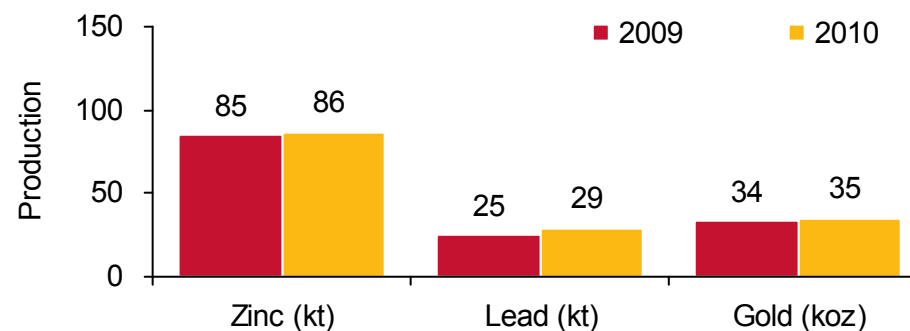

Golden Grove (Western Australia)

- Zinc, copper, lead and precious metals concentrates

Rosebery (Tasmania, Australia)

- Zinc, copper, lead concentrates, gold dore and silver

Segmental performance – Century

	2010	2H 2010	1H 2010	2H 2009
Financial (US\$ million)				
Revenue	711.4	454.3	257.1	221.1
EBITDA	356.2	227.0	129.3	74.2
EBIT	136.9	87.9	48.8	(1.2)
Segment result	122.4	80.8	41.6	(12.4)
Operational				
Zinc produced (kt)	510.6	272.1	238.5	163.0
Lead produced (kt)	38.8	21.3	17.5	7.0
C1 costs (USc / lb Zn)	53.1	54.4	51.8	N/A

Production guidance 2011

Zinc (kt)	490	to	510
C1 costs (USc / lb)	50	to	55

Key developments

- Current mine plan shows production to mid-2015
- Study underway for further cutback to access additional resources
 - 4.8Mt @ 8.7% Zn (potential to extend mine life by approximately 1 year)
 - Production of ~300kt Zn and ~20kt Pb
 - Approximately US\$180m capex
 - Decision expected 1Q 2012
- Other projects include Silver King and phosphate study

Segmental performance – Sepon

	2010	2H 2010	1H 2010	2H 2009
Financial (US\$ million)				
Revenue	596.7	288.0	308.7	241.9
EBITDA	358.6	167.0	191.6	146.8
EBIT	343.8	161.7	182.0	130.5
Segment result	334.2	153.4	180.8	126.3
Operational				
Copper cathode produced (kt)	64.2	29.9	34.3	34.0
Gold produced (koz)	104.5	49.9	54.6	49.0
C1 costs (USc / lb Cu)	96.6	104.3	88.9	80.6
C1 costs (US\$ / oz Au)	609.3	700.7	518.0	547.8

Production guidance 2011				
Copper cathode (kt)		75	to	80
C1 costs (USc / lb Cu)		95	to	100
Gold (koz)		70	to	85
C1 cost (US\$ / oz Au)		930	to	940

Key developments

- Copper Expansion complete; ramping up to nameplate capacity of 80kpta
- Cu reserves increased by 10% in 2010
- Thengkhamb copper pits being developed
- Primary gold scoping study nearing completion:
 - Potential to produce 100koz pa for 10+ years

Segmental performance – Golden Grove

	2010	2H 2010	1H 2010	2H 2009
Financial (US\$ million)				
Revenue	391.3	209.3	182.0	152.6
EBITDA	192.4	106.8	85.6	68.8
EBIT	155.6	90.1	65.5	54.4
Segment result	147.7	86.5	61.2	44.4
Operational				
Zinc produced (kt)	73.3	29.5	43.8	36.0
Copper produced (kt)	33.5	19.3	14.2	16.0
C1 costs (USc / lb Zn)	7.7	(23.6)	39.0	14.9

Production guidance 2011

Zinc (kt)	83	to	87
Copper (kt)	19	to	22
C1 costs (USc / lb Zn)	15	to	20

Key developments

- Scuddles re-opening underway
- Copper oxide pit approved
 - Adds 3 years to mine life to 2018
 - Expected to commence construction
- Completion of TSF3 with 15 years life
- Exploration success continuing at Gossan Valley

Segmental performance – Rosebery

	2010	2H 2010	1H 2010	2H 2009
Financial (US\$ million)				
Revenue	220.5	123.6	96.9	122.0
EBITDA	104.5	65.2	39.3	57.9
EBIT	78.8	52.1	26.7	43.9
Segment result	76.8	50.4	26.4	43.3
Operational				
Zinc produced (kt)	86.3	48.2	38.1	46.0
Lead produced (kt)	28.9	14.9	14.0	14.0
C1 costs (USc / lb Zn)	28.4	5.8	51.0	28.3

Production guidance 2011				
Zinc (kt)		80	to	83
Lead (kt)		24	to	25
C1 costs (USc / lb Zn)		15	to	20

Key developments

- Ventilation shaft completed
- Zn resource increased by 11.5% in 2010
- Deep drilling continues
 - promising indications
- Surface upgrade option; study underway

Segmental performance – dis-continuing businesses⁽¹⁾

(US\$ million)	2010	2009
Revenue	1,662.2	769.9
EBITDA	60.6	69.6
Depreciation and amortisation	(19.0)	(16.7)
EBIT	41.6	52.9
Share of net profit of associates and JCE	41.0	4.4
Profit before tax	80.3	53.0
Income Tax Expense	(4.0)	(6.4)
NPAT	76.3	46.6
Book value of segment net assets	622.8	610.9

⁽¹⁾ Excluding transaction costs associated with the VSA of US\$86.4m

03

STRATEGY AND GROWTH

Strong industry fundamentals underpinned by China's growth engine combined with continued revenue shift towards miners

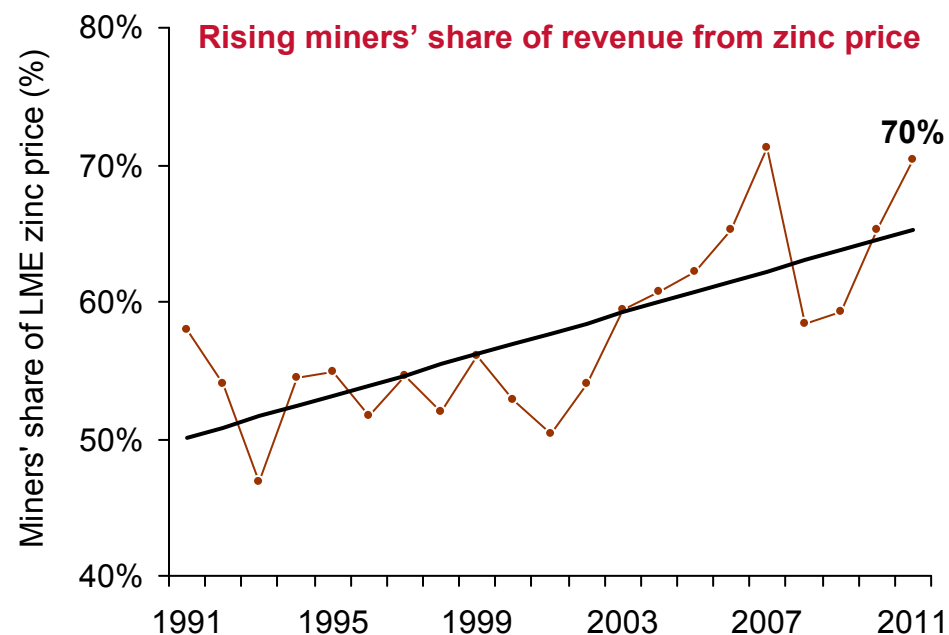

Rapid urbanization will drive China's appetite for commodities to expand further

China's growing consumption of base metals

Source: EIU, Brook Hunt

Continued revenue shift towards miners

- Zinc revenue continues the progressive long-term structural shift away from smelters, towards mines
- Copper and lead miners capture even more price rise upside as concentrates already sell on flat terms

Source: Brokers research report

Experienced Chinese and Western Board

Non-Executive Directors

- Li Fuli (Chairman – retiring 1 April 2011)
- Wang Lixin (Chairman – from 1 April 2011)
- Jiao Jian
- Xu Jiqing
- Gao Xiaoyu (from 1 April 2011)

Independent Non-Executive Directors

- Ting Leung Huel, Stephen
- Loong Ping Kwan
- Dr. Peter Cassidy

Executive Directors

- Andrew Michelmore (CEO)
- David Lamont (CFO)
- Hao Chuanfu (Vice Chairman)
- Li Liangang

Targeted value-focused acquisition

Creation of shareholder value is paramount in execution of M & A and exploration strategy and management has set clear investment criteria to achieve this objective

Commodities

- Copper, zinc / lead
- Nickel, bauxite / alumina

Geographies

- Careful analysis of political and operational risk
- Insights available from PRC Government

Scale

- Must be meaningful to MMR's scale

Stage of development

- Prefer producing assets
- Can add value to early-stage assets available at the right price

Capital re-structuring through potential equity capital raising

Specific Mandate

- Shareholders have approved a Specific Mandate to issue up to 2.7 billion new shares to raise up to US\$1.6 billion before 31 July 2011

Providing capital for growth

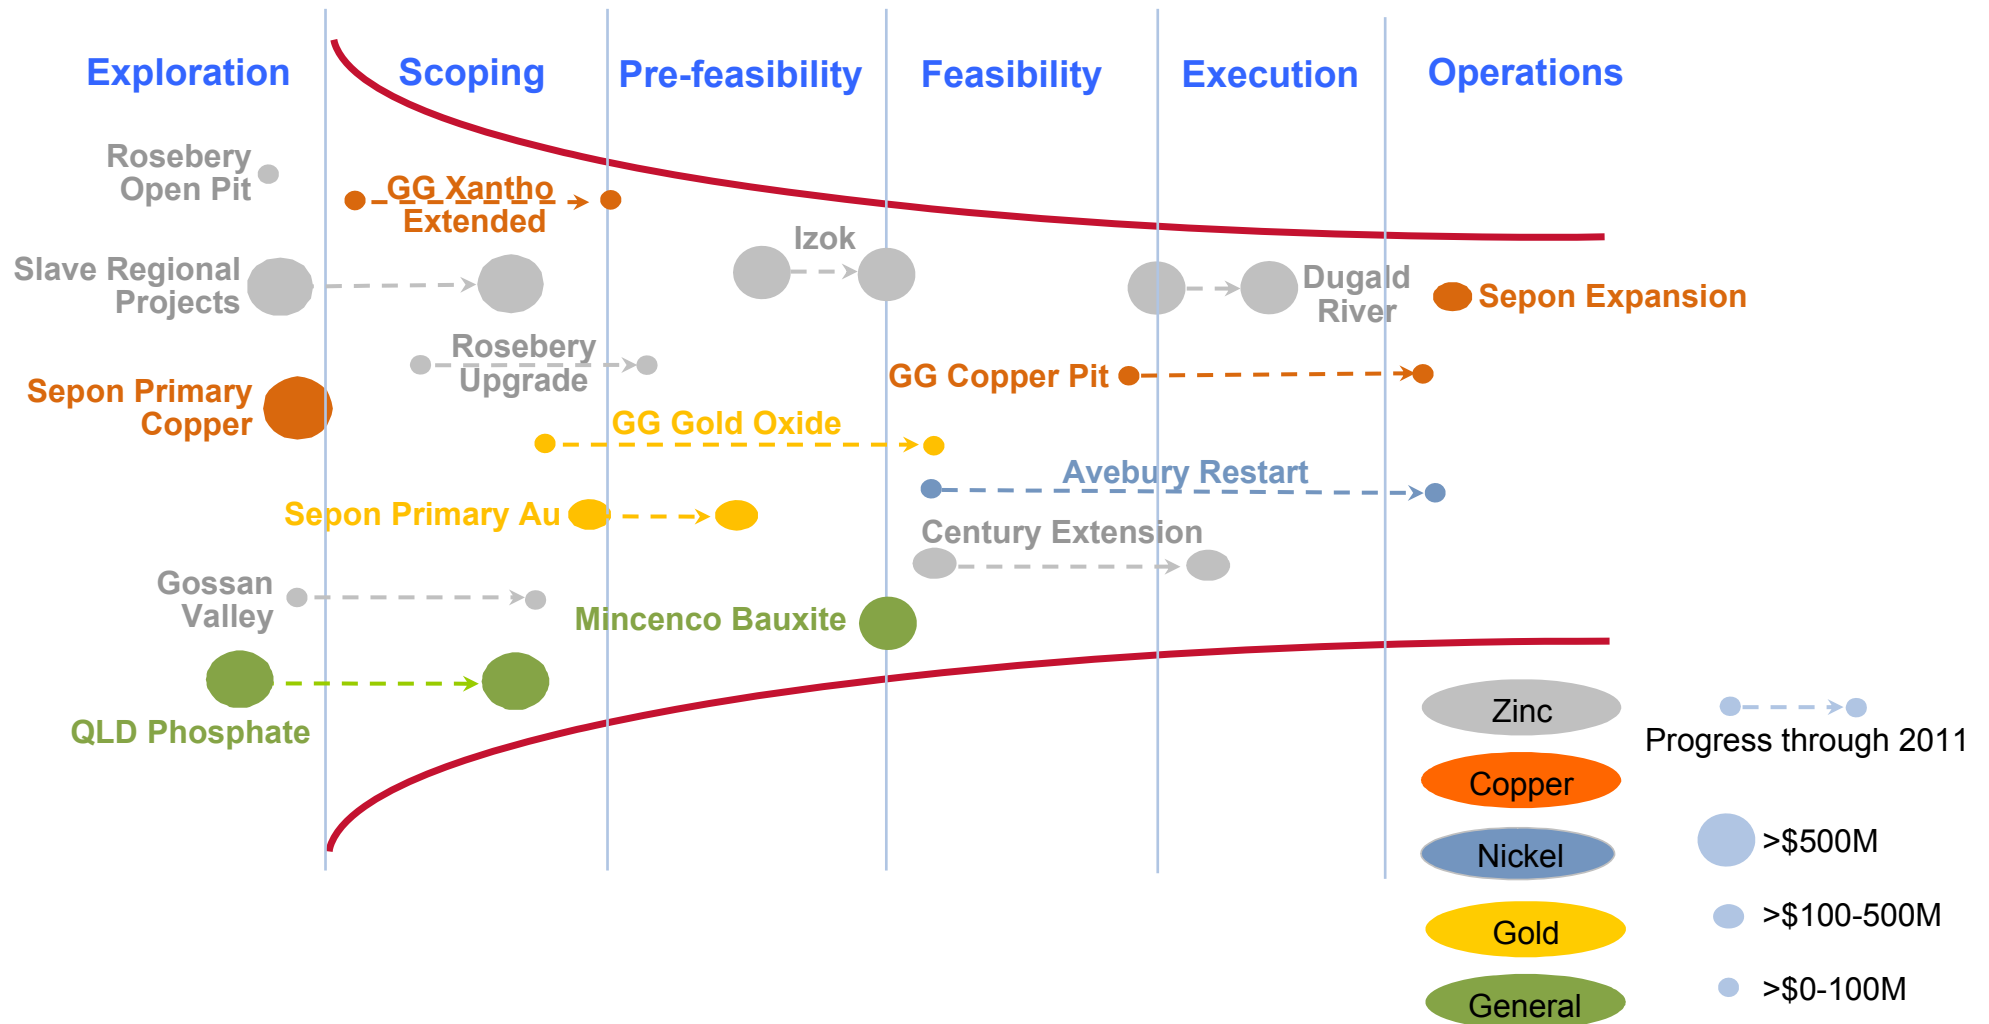

- Potential execution of Specific Mandate to raise ~US\$1.0 billion
 - Strong cash flows and planned asset sales have reduced any need to raise maximum US\$1.6 billion approved
- Potential use of proceeds:
 - US\$0.7 billion to repay Loan Note
 - Remaining balance to support other growth-related projects (Development of Dugald River, exploration activities, general corporate purposes)

Simplified, sustainable capital structure

- Potential capital raising would significantly reduce gearing ratio from approximately 74% to approximately 26%
- CMN will not participate in any capital raising
 - CMN intends to fully convert its PSCS if Specific Mandate is executed
 - Increases free float / liquidity
 - Simplified capital structure

Major projects development pipeline (>US\$2bn based on known projects)

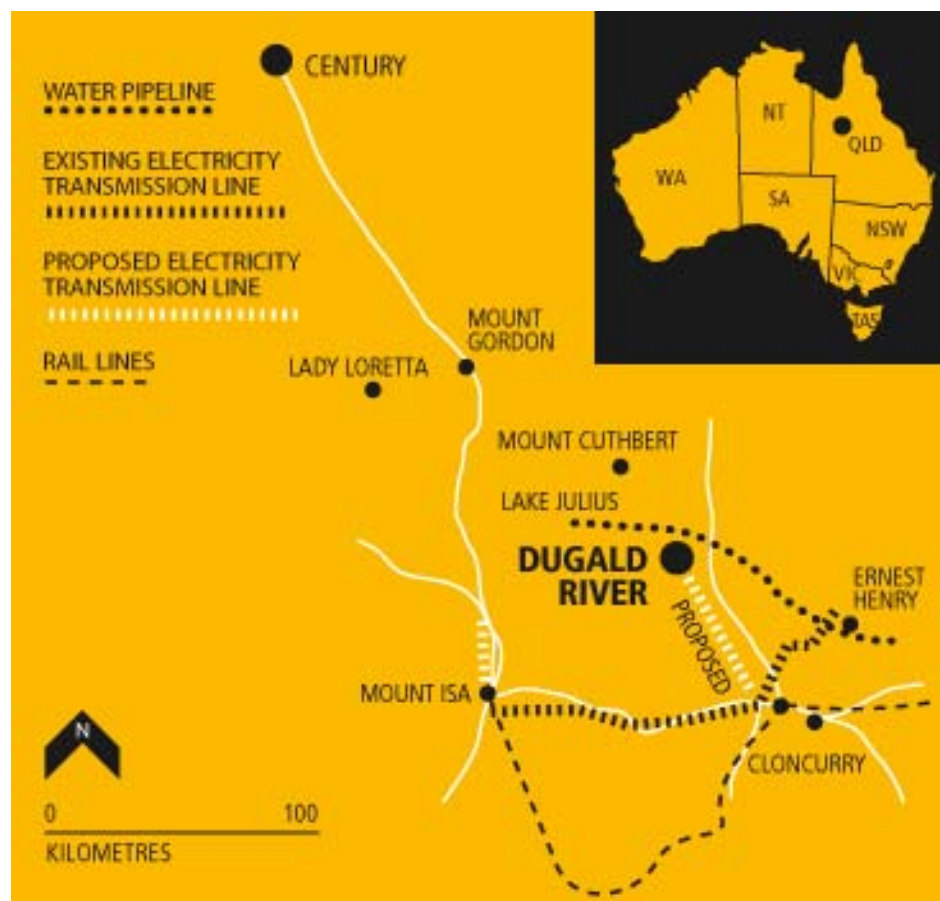

Potential to expand and achieve sustainable growth through organic initiatives focusing on upstream mining operations

Dugald River plus Izok Lake targeted to replace Century (in Zn equivalent) by 2017

Dugald River (zinc, lead) overview

- High grade, world-scale deposit; 53Mt at 16% Zn equivalent grade (12.5% Zn; 1.9% Pb; 36g/t Ag)
 - Feasibility study completed 2010; 200ktpa Zn for 23 years; open at depth
- No major objections in EIS consultation phase
- Intensive activity underway
 - Engineering design
 - Permitting
 - Access
 - Power, water and infrastructure agreement
- Expect approval of exploration decline 2Q 2011; full project approval 3Q 2011
- Subject to permitting, first production expected 1H 2014
- Indicated capex (to be finalised) US\$850 – 950m
- Projected C1 costs ~US\$0.65/lb (based on 200ktpa Zn in concentrate, excluding approximately 25ktpa Pb and 900koz Ag of by-product credits)

Location

Potential to expand and achieve sustainable growth through organic initiatives focusing on upstream mining operations (cont'd)

Izok Lake, High Lake (zinc, copper) overview

- Izok Lake resource: 15Mt at 27% Zn (equivalent) grade
 - PFS definition of 11-year open pit and underground mine
 - Indicated production of 150ktpa Zn and 30ktpa Cu
- High Lake resource: 17Mt at 18% Zn (equivalent) grade
- Important activities in 2011:
 - >20,000m of drilling planned for Izok Lake
 - Final infrastructure study
- Plan to commence 2 – 3 year permitting process by end 2011
 - Indicated production 2016 - 2017

Location

Our exploration strategy

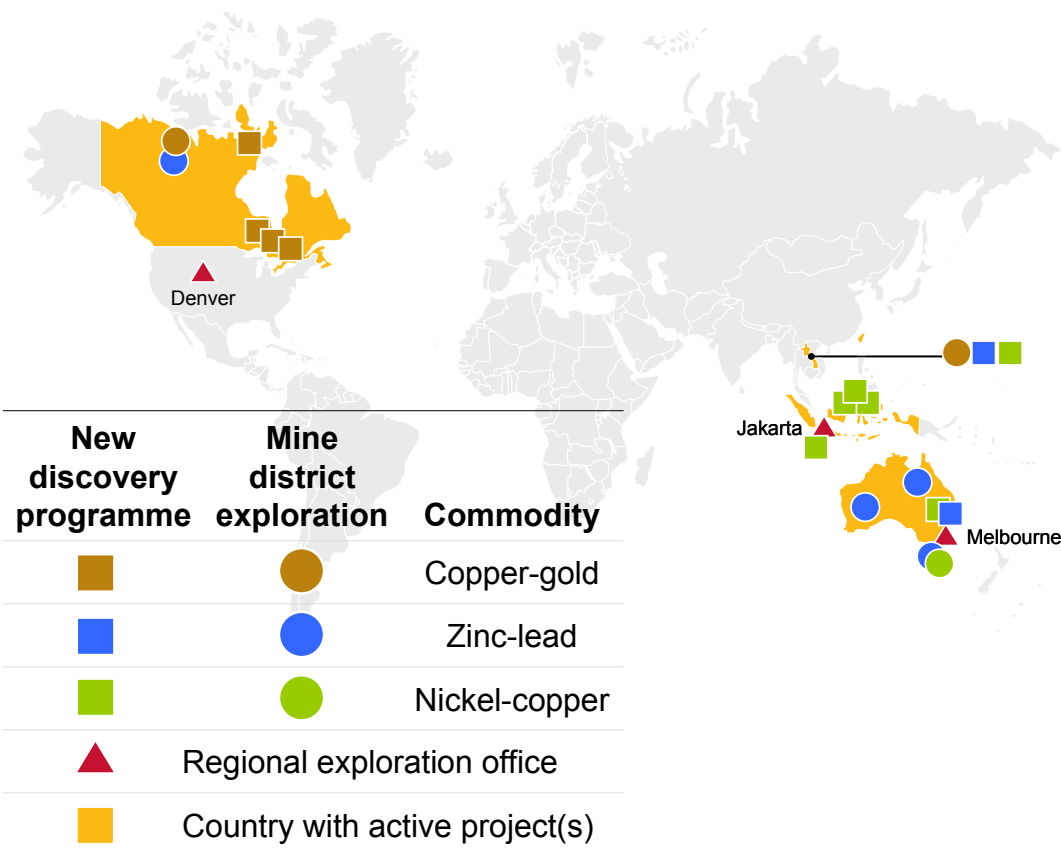

- Focused on copper, zinc, nickel and gold
- Exploration spending of ~US\$60 million per annum in 2011 and 2012
- Target regions: Australia, North America, Asia, Africa

3 Tiered Sub-strategy

Mine District – aggressive near mine exploration and strategic title consolidation around operating sites (~ 70% of budget, Short-term value add - <1 year)

New Discovery – existing portfolio of district scale early stage to advanced projects under title or JV (~20% of budget, Mid term value add – 1 to 3 years)

Project Generation – define belts and prospects around the world with world class potential for commodity and deposit styles meeting size and grade criteria where MMG can secure competitive advantage. (~10% of budget, Long term value add and seed capital into core intellectual property – 3 to 5 years)

Strategic divestments

- MMR is a diversified, upstream base metals mining company
- The PRC downstream assets are not core to MMR's strategy going forward
 - Divestment will be pursued during 2011
 - MMR expects full market value
 - Book value of assets to be divested ~US\$620 million
 - MMR undisturbed market capitalisation prior to MMG announcement was ~US\$800-850 million
- Divestment will be handled in an orderly manner
- Trading and fabrication assets to be divested:
 - Minmetals Aluminium
 - North China Aluminium
 - Yingkou Orientmet
 - Guangxi Huayin
 - Changzhou Jinyuan Copper
 - Qingdao M.C.
 - Sino Nickel
- Mincenco bauxite JV to be retained

04

POTENTIAL CAPITAL RAISING

Potential capital raising

- Shareholders have approved a Specific Mandate to raise up to US\$1.6 billion by issuing up to 2.7 billion new shares before 31 July 2011
- Depending on market conditions, may seek to raise capital, but likely to be no more than US\$1 billion
 - Strong cashflows and planned asset sales have reduced the need
 - MMR will not go to the market more than once under the Specific Mandate
- CMN will not participate in any capital raising
 - Maximise free float
 - CMN has informed MMR that it intends to convert all PSCS if Specific Mandate is exercised
- Funds used to:
 - Repay deferred settlement amount to CMN (approximately US\$700m)
 - Support other growth-related projects
 - Dugald River
 - Izok Lake / High Lake
 - Century, Golden Grove and Rosebery extensions
 - Sepon primary gold
 - Exploration

05

CONCLUSION

Bigger, Stronger and Ready to Grow

MMR:

- is now an international diversified upstream base metals business
- has generated strong financial and operational performance
- has a strong development and exploration pipeline
- is a highly-differentiated investment opportunity on the Hong Kong market
- plans to strengthen its balance sheet and broaden its investor base
- has a world-class Chinese and International Board and management team
- has the support of China Minmetals Corporation

MMR is bigger, stronger and ready to grow

Golden Grove

Overview

Location	Western Australia
MMG ownership	100%
Commodity	Zinc, copper, lead, gold, silver
Stage	Production
Mining method	Underground

Processing facilities

Reserves and resources (as at June 2010)

Dugald River

Overview

Location	Queensland, Australia
MMG ownership	100%
Commodity	Zinc, lead, silver
Stage	<ul style="list-style-type: none"> Final stages of feasibility and permitting “Go” decision expected Q1 2011
Mining method	Underground
First year of operation	2014
Planned mine life	23 years

Izok Lake and High Lake

Overview

- A suite of polymetallic base metals and gold assets in the Nunavut Territories of northern Canada
- Izok Lake – Cu / Zn / Pb / Ag
 - High geological prospectivity
 - Pre-Feasibility Study underway
- High Lake – Cu / Zn / Pb / Ag
 - Approximately 2,000sqkm of exploration tenements
