VOLUNTARY ANNOUNCEMENT LAS BAMBAS UPDATE

MMG Limited (MMG) advises that transport continues to be disrupted by community blockades in the Chumbivilcas province of Peru, 200 km. away from the Las Bamabs operation.

The blockade is on public roads along Peru's most significant copper logistics corridor. The protests relate to community demands for a large number of logistics transport contracts, as well as classification of these communities as an area of direct influence, having rejected company proposals for social development.

Production at site continues, however due to the impact on personnel and supply logistics, production is being progressively impacted and it is expected that operation will have to stop during this week.

Concentrate shipments and sales are also impacted.

The primary focus remains on ensuring the health, safety and security of employees, contractors and the communities involved.

MMG is committed to pursuing active coordination with the National Government and communities to reach an agreement based on an authentic dialogue and the continuation of significant social investment in the province.
