

THE RIPPLE EFFECT

The economic impact of the Rosebery mine creates a ripple effect that can be felt across Tasmania.

In the past five years the mine has contributed more than \$2.6 million to the local community.

This includes sponsorships for community organisations, sporting clubs and monthly payments to help provide vital services at the Rosebery Community Health Centre.

MMG Rosebery is committed to supporting a healthy community.

That is why the mine provides fresh fruit to both the Rosebery District School and St Josephs Catholic School. Fresh fruit is delivered to the schools every week to ensure that every student has access to healthy snack options.

MMG Rosebery is a proud supporter of local sporting clubs, including the Rosebery Toorak Hawks, and the Rosebery Golf Club.

"It would not be possible for the sporting clubs I am involved in to continue without the level of support we get from the mine. It is essential for their survival,"
Duncan Murfet, coach
Rosebery-Toorak Hawks.

MMG is also a major sponsor of the annual Rosebery Carnival, presented by the Rosebery athletics club.

THE RIPPLE EFFECT

WE MINE FOR PROGRESS

HOW MMG CONTRIBUTES

\$800,000 in rates

is contributed to the West Coast Council annually.

\$38 million in wages

circulated through the local community last year.

\$100 million in royalty payments

to the State Government over the past five years, helping to pay for essential services including health, education and community safety.

It is estimated that MMG Rosebery is responsible for paying over 40 per cent of total mineral royalties collected in Tasmania.

The Rosebery Mine supports a network of suppliers across Tasmania

including engineering workshops, equipment suppliers, specialist consultants and external trades.

\$570 million

is estimated to be spent with the supplier network between now and 2030. The vast majority in the North West Coast.

We are proud to be playing a role in closing the digital divide.

Every high school student at the Rosebery District School is provided with a laptop device, courtesy of MMG.

MMG believes that every student should have access to the tools they need to thrive in this fast paced, technologically driven world.

Tasmania has consistently scored the lowest of all states in the Australian Digital Inclusion Index, which measures access to digital services essential for daily life.
